InsulCap® Thermal Pallet Covers

INSULCAP®

INSULPLATINUM®

INSULCAP® PRODUCT DESCRIPTION

- Wilpak Group International designs and produces a range of custom InsulCap® pallet covers.
- These thermal barrier systems cover palletised loads to provide an enclosed thermal environment, that passively manages product temperature during storage and transport.
- Our InsulPlatinum® barrier is a heavy-duty large air cylinder material which offers maximum protection for temperature sensitive goods.

INSULCAP® VALUE

PRODUCT FEATURES	CUSTOMER BENEFITS
Light weight protection system	<i>Easy and safe to handle</i>
Custom cut profiles	<i>Easy to install to existing load configuration</i>
Flat pack shipping and storage	<i>Reduces transport and storage costs</i>
Tough thermal barrier material	<i>Reliable and reusable</i>
Precision cut reflective material	<i>Enhances presentation of goods</i>
Recycled / recyclable material content	<i>Reduced environmental impact</i>

INSULCAP® CUSTOM SIZING & THERMAL BARRIER PROPERTIES

- Typical dimensions are based on the size of existing palletised loads.
